15	SUNDAY
2.00 p.m.	SOCCER/Carnarvon Norsemen vs Vic West

COVER:
Lab instructor BETSY SWEENEY (biology) has
been working with the Biology Club on
preparations for its March 7 teach-in,
Environment Tomorrow. She's a welcome
addition to the Elliott Building environment.

69-70: Vol. V, no. 10.

Campus Events

An exhibition of students' work from the studio visual art department opens on March 1 at the Provincial Museum. It will remain on display through most of the month.

Faculty and staff are invited to revisit old haunts for a new purpose on the evening of March 4, when a consumers' forum will be held on the University's former Lansdowne Campus. It begins at 8 p.m. in the Ewing Building conference room. Sponsors are the Consumers' Association of Canada and the provincial adult education division.

March 6 and 8 have now been confirmed as dates for lectures here by Dr. Immanuel Velikovsky, whose theories on cosmic and world history have found growing acceptance. Details are given on the calendar side. Because of a heavy demand expected for seating, tickets should be ordered in advance from the department of history in art (local 408).

Environment Tomorrow, a Biology Club teach-in on man's misuse of his surroundings, is expected to draw almost 3,000 people to the campus on March 7. Proceedings begin at 9 a.m., when the University president, DR. BRUCE PARTRIDGE, will open an introductory assembly in the gym. Discussion groups will start at 10 in the MacLaurin and Elliott Buildings, with activities continuing through the day. Speakers will include many members of faculty and CHANCELLOR RODERICK HAIG-BROWN, a well-known conservationist. Anyone planning to attend the closing banquet at 6.30 p.m. should order a ticket in advance (for \$1.85) from committee chairman BETSY SWEENEY (biology).

Sunday slaves-to-duty may have a gloomy reception if they turn up at the office on March 8. Power will be off in the Cornett, MacLaurin, and Sedgewick Buildings from 7 a.m. to 5 p.m., while electrical connections are being made to the new Biological Sciences Complex. The McPherson Library, and the Elliott and Clearihue Buildings, will have a half-hour interruption in service at the beginning and the end of that period.

Faculty/Staff News

Colleagues, and many friends among staff and students, were saddened by the death of JAMES E. TRAVIS (French) in mid-February. Mr. Travis had spent most of the past six years in Victoria as a part-time lecturer, after a distinguished career at other institutions as a teacher and grammarian.

DR. MICHAEL DOYLE (English), recently elected a member of the Canadian League of Poets, has been asked to read from his work at the Third Annual Metro Spring Poetry Festival in Toronto. The first number of Tuatara, a biannual poetry magazine under his editorship, has just been issued.

ROGER BRAY (music) has received his M.A. and D.Phil. from the University of Oxford. The Royal Musical Association has invited him to give a lecture in London in January 1971.

Commissioner for B.C. on Canada's first bilingual districts advisory board is DR. W. H. HICKMAN (French). The 10-man board will be concerned mainly with recommendations on boundaries to be established for federal bilingual districts.

GORDON SHRIMPTON (classics) reports wide interest from students and teachers at local elementary schools in sessions backing up Grade 7 studies of classical history. Several groups have visited the campus this year to attend special slide lectures and discuss modern views of the ancient world.

DR. RODNEY SYMINGTON (Germanic languages and literature) spoke to the Vancouver German-Canadian Association this month on the work of Shakespeare and German playwright Bertolt Brecht, using the title "Cannonfodder for the Stage". His book on the two dramatists will be published later this year.

One of the guest speakers at the spring workshop of the Queen Charlotte Islands District Teachers' Association next week will be DR. W. H. GADDES (psychology). His topic will be "Mental Health Problems in the School".

Faculty/Staff News

DR. ANN SADDLEMYER (English) has been appointed consultant to the Royal Irish Academy's new committee for the study of Anglo-Irish language and literature.

The psychology department plans to hold its fifth annual neuropsychology workshop on March 21 and 22. A series of seminars on neuropsychology earlier in the same week will be given by Dr. A.L. Benton of the University of Iowa and Dr. Frank Spellacy, holder of this University's first doctoral degree, who is now in Boston.

DR. JENNIFER WALTERS (French) has been awarded a Canada Council research grant to continue her study of the novels of Michel Butor. She spent reading week in Albuquerque, where Monsieur Butor is lecturing at the University of New Mexico.

Suicide and Greek Tragedy, by DR. M. D. FABER (English), has been accepted for publication at Farleigh Dickinson University, New Jersey, in conjunction with the International Universities Press, New York. Dr. Faber will speak on "Suicide and Euripides" in San Francisco on March 22, at the annual convention of the American Association of Suicidology. Membership in the organization, now in its third year, includes psychiatrists, sociologists, and others with a professional interest in suicide prevention.

DEAN J. L. CLIMENHAGA (arts and science) is in Ottawa attending meetings of the scholarship selection committee of the National Research Council. On March 19 and 20 he will be co-convenor of the 1970 spring conference of deans of arts and science of Western Canadian universities. More than 30 deans will meet at Victoria's Oak Bay Beach Hotel. Their other host will be Dr. Eric S. Graham, director of studies at Royal Roads.

Faculty/Staff News

A few seats are still available on an AMS charter flight that leaves for London on May 9 and returns on August 28. The fare from Victoria is a mere \$290 for those associated with the University. SUB manager DICK CHUDLEY has details at local 359.

DR. J.-P. VINAY (linguistics) will be responsible for the coordination of bibliographical material to be collected in a new central agency for his discipline. Plans were completed at a meeting of the Canadian Linguistic Association in Ottawa on February 7. They will involve the National Library in Ottawa and the Centre for Applied Linguistics in Washington, D.C.

DR. R. H. ROY (history) has been elected to the executive of the Victoria-Vancouver Island branch of the Royal Commonwealth Society.

The development office has moved from Hut "F" to more domestic surroundings. Manager FLOYD FAIRCLOUGH and his staff are now installed in the "White House" on the northeast corner of Finnerty and Sinclair. Phone numbers remain 370 and 371.

MRS. SHIRLEY BAKER, co-ordinator of women's activities, has returned to the campus after an 18-month leave of absence with Canadian University Students Overseas. Most of her time was spent in Tanzania as CUSO's regional representative for the East and Central Africa program. MRS. DIANA CALEB, the acting co-ordinator, is retiring to enjoy her new home in Saanich.

The editor of the Newsletter is also retiring from official duties. DAVID DUNSMUIR (information services) has resigned to attend to other matters. As the first of these is the tag-end of his graduate work, he will remain on campus for the moment as a spectral presence.
